Super Soft Cock Ring by Tantus TS601 \$11.70

Wearing a c-ring can create larger, harder erections, and intensify the sensation of a male's orgasm. The Tantus Super Soft C-Ring is a redesigned version of our classic ring. We used the same Ultra-Premium Silicone, but with a stretchier, softer texture to make it easier to put on - even with an erection. Wear it around both the penis and testicles for the most intense effect.
