TENGA FLIP HOLE RED TN315 \$113.90

Delicate details entangle you for a whole new sensation! Densely packed protrusions brush along as they entangle you. A stream of smoothly formed ribs gently tickle your glans. Ribs aligned in a fan-shape sector amplify the stimulation

Spiral - TENGA 3D TN400 \$53.65

A form created from winding hexagonal plates. Both the varying sensations of the spiral form and the detailed ribs of each step of the walls combine to provide two separate stimuli catering to those adherent to both hard and soft sensations.

Module - TENGA 3D TN405 \$53.65

Randomly elevated blocks adorn the walls of this object. The protruding blocks rub along you for a firm sensation, while the receded blocks cling onto you accentuating the tone. The blocks cascade in a contrasting flurry of stimulation providing a strong sensation with a solid finish.

Zen - TENGA 3D TN410 \$53.65

Fine ribs are engraved around its surface. The delicate flows that climb these walls combine to create an intertwining sensation. Envelop yourself with this smooth stroking stimulus. A must-have for those who seek a gentle sensation.

Polygon - TENGA 3D TN415 \$53.65

Multiple randomly constructed triangles embellish its surface. Discover the firm constriction and accentuated stimulus that is hidden within the slippery glide of the polygonal faces and unexpectedly strong edges for a transcendental experience you have never felt before.

Pile - TENGA 3D TN420 \$53.65

Gently stacked triangular protrusions form its structure. With tightly packed triangles bearing a soft sensation at the base and a distinct rippling stimulus as they space out at the tip. The varying sensations brought around by this gradient of stimulation harmonizes both soft and hard sensations.
